

English Worksheet # 1; September 2013

Name: _____ Class: Jr.III _____

Date: September , 2013

Time: 30 minutes

Maximum Marks: 25

Marks Obtained: _____

COMPREHENSION

A robot is a machine. But it is not just any machine. It is a special kind of machine. It is a machine that moves. It follows instructions. The instructions come from a computer. Because it is a machine, it does not make mistakes. And it does not get tired. And it never complains. The first real robot was made in 1961.

Robots are all around us. Some robots are used to make things. For example, robots can help make cars. Some robots are used to explore dangerous places. For example, robots can help explore volcanoes. Some robots can even recognize words. They can be used to help answer telephone calls. Some robots look like humans. But most robots do not. Most robots just look like machines.
