**Q.4. The following paragraph is in first person narrative, change it into third person narrative.**

Narrative

Essay

My family is not originally from the Louisiana, County area. Actually, we aren't from any particular town, but we moved around the Monongalia area most of my childhood. My relatives, including my grandparents, still live there. Because of this, we often travel to the area to visit for a day or sometimes overnight. At first, none of us minded the hour and a half drive. It was well worth it to see old friends and catch up with family. However, during each visit, my mother was reminded of a primary factor in her decision to move our immediate family over 100 miles away.
