

## **Social Studies Blog Worksheet**

**Year 4**

**Date: 9.2.2018**

**Q1. How can you save water resources from depletion? Give your answer keeping 3Rs in mind.**

**Q2. What is a substitute?**

**Q3. Can we recycle at home?**

**Q4. Research based question: list renewable and non-renewable resources.**

**Answer key:**

**Answer1.**

**Water needs to be used wisely. Reducing water usage will help save water for future generations.**

**Answer2.**

**Substitutes can be used in place of a resource that has become scarce.**

**Answer3.**

**Recycling is done at specialized units. Old items like paper, plastic and glass are sorted, melted and new stuff is created at the recycling units.**
